PREFACE

This book attempts to cover the following subjects:

1. Basic knowledge of astronomy required to study astrology.
2. Astronomical data required for astrological calculations.
3. Horoscope analysis.
4. Astrological remedies.
5. Karmas (Deeds).
6. Attempt to make a connection between Astrology and Science.
7. Through Astrology, made an effort to understand karmas (deeds), to understand sins and virtues, to understand happiness and sorrows, to understand birth-death-rebirth, to understand soul-species and in the last to go towards Almighty God.
8. In this book some material and data are collected with the help of the internet (Google search). Highly thankful to those unknown persons who provided material and data on Google.
9. I am greatly thankful to the unknown persons whose knowledge of astrology has been descended through centuries in the Indian and Western region.
10. I am greatly thankful to the known persons who have helped me to gain confidence through my personal experience and interactions with them on this subject.
11. I am greatly thankful to my family and friends whose unwavering faith and support has provided me the confidence to write and publish this book. Which I have gained through 15 years of self-training and 35 years of practice. I must admit that training self is still an ongoing and never-ending process.
12. Special thanks to Captain Kuldeep Singh (Indian Navy), Commander K Victor Paul, and Mr Rajiv Goel (Retd. Director Airport Authority of India) for helping me in publishing this book.

CHAPTER-A

Basic knowledge of astronomy required to study astrology:

Fortune telling:

Since ancient times humans have been eager to know and predict the events of the future. There are many methods for predicting the events of the future. The main methods are as follows:

- 1- Astrology
- 2- Palmistry
- 3- Numerology
- 4- Tarot Cards
- 5- Intuition
- 6- Tantras, Mantras, Yantras etc.

Astrology- Study of effects of Heavenly bodies on human beings.

To study Astrology, one should know the following subjects:

- 1- Basic knowledge of Astronomy required to study Astrology.
- 2- Astronomical data required for Astrological calculations.
- 3- Horoscope analysis.
- 4- Astrological remedies.
- 5- Karmas (Deeds).

History of Astronomy and Astrology:

1. 35000 BCE- Tracking the Moon phases in Africa and Europe.
2. 8000 BCE- Warren Field Scotland U.K. The oldest lunar calendar.
3. 4900 BCE - Goseck Circle, Germany. Oldest Solar observation in the world.
4. 2334 to 2279 BCE- Venus tables of Ammisaduqua. Astronomical observation of Venus for 21 years. During the reign of King Sargon of Akkad
5. 2000 to 1600 BCE – Nebra Sky disc, Germany. May be an astronomical instrument, 30 cm dia. and 2.2 kg weight.
6. 1950 to 1651 BCE- Oldest evidence of the use of astrology from the first dynasty of Mesopotamia.
7. 1900 to 700 BCE- Kokino Observatory (Serbian border). Used to track movement of the Sun and the Moon.

8. 1800 to 1400 BCE- Golden hats of Germany, France, and Switzerland. Probably a kind of calendar.
9. 3rd May, 1375 BCE- First recorded full solar eclipse was seen by Babylon peoples.
10. Astronomy was the need, to develop an accurate calendar for Agricultural Seasons.
11. 700 to 600 BCE- Vedanga Jyotisha by Lagadha. Rules for tracking the motion of the Sun and Moon in context of a five years intercalation cycle. First mathematical work on Astronomy in India, based on Mesopotamian astrological sources.
12. 130 BCE- Discovery of the Precession of the Equinoxes by Hipparchus (Greek astronomer). In 120 AD, Ptolemy (Roman astronomer) was aware of its effect.
13. Heliocentrism- Sun as centre of the World.
14. Geo-centrism- Earth as the centre of the World.
15. 149-150 CE- Yavanajataka (sayings of the Greeks), oldest astrological treatise in Sanskrit. In Greek it was written in 120 BCE.
16. Romaka Siddhanta is one of the five Siddhanta's mentioned in Varahamihira's Pancha Siddhanta. It is based on the astronomical learning of Byzantine Rome. This work is based on the tropical system.
17. 476 to 550 CE- Aryabhata, worked in astronomy.
18. 505 to 587 CE- Varahamihira, worked in astronomy and astrology.
19. 598 to 665 CE- Brahmagupta, worked in astronomy.
20. 600 to 685 CE- Bhaskara(I), worked in astronomy.

The following information of astronomy is required to understand Astrology.

Astronomy is the basis of astrology:

1. Zodiac Signs (12 numbers) (Figure-1).
2. Constellations (27 numbers), Nakshatras.
3. Heavenly bodies- Sun, Moon, Mercury, Venus, Mars, Jupiter and Saturn.
4. Nirayana (Sidereal) system. (Figure-7)
5. Ayanamsa (Precession of the Earth) (Figure-6 & 8).
6. Rahu and Ketu (Shadow Planets, Figure-10).
7. Solar system (Figure-2).
8. Geo-centrism- Earth as the centre of the World (Figure-3).
9. Star Spica (Chitra Nakshatra) in Virgo sign (Figure-5).

A-Twelve numbers of Zodiac signs and approximate distance from the Earth:

1. Aries, 66 light years
2. Taurus, 65 to 444 light years

3. Gemini, 34 to 51 light years
4. Cancer, 290 to 577 light years
5. Leo, 79 light years
6. Virgo, 250 light years
7. Libra, 77 to 185 light years
8. Scorpio, 550 light years
9. Sagittarius, 143 light years
10. Capricorn, 39 light years
11. Aquarius, 540 light years
12. Pisces, 294 to 340 light years

B- Twenty-seven numbers of Constellations (Nakshatras):

There are 88 numbers of officially recognised constellations (nakshatras) in space. But in astrology, one nakshatra is $13^{\circ}-20'$ ($800'$) movement of the Moon around the Earth. In one revolution (360°) of the Moon around the Earth, comes 27 numbers of nakshatras. Which are followings:

1-Ashwini	2-Bharani	3-Krittika
4-Rohini	5-Mrigashira	6-Ardra
7-Punarvasu	8-Pusha	9-Ashlesha
10-Magha	11-Purva Phalguni	12-Uttara Phalguni
13-Hasta	14-Chitra	15-Swati
16-Vishakha	17-Anuradha	18-Jyeshtha
19-Mula	20-Purva Shadha	21-Uttara Shadha
22-Shravana	23-Dhanishta	24-Shatabhisha
25-Purva Bhadra	26-Uttara Bhadra	27-Ravati

One nakshatras is $13^{\circ}-20'$ or $800'$ (800 minutes), 27 numbers of nakshatras are $27 \times 800' = 21600'$ or 360° . One revolution of the Moon around the Earth.

C- Heavenly Bodies and approximate distance from the Earth:

1. Sun, 147.1 to 152.1 million kilometres.
2. Moon, 3.63 to 4.06 million kilometres.
3. Mars, 55.7 to 399.6 million kilometres.
4. Mercury, 77.0 to 216.3 million kilometres.
5. Jupiter, 592 to 965.5 million kilometres.
6. Venus, 39.8 to 259.7 million kilometres.
7. Saturn, 1204.3 to 1652.5 million kilometres.

8. Rahu—Shadow Planet, 3.63 to 4.06 million kilometres, on ecliptic plane of the Earth.
9. Ketu—Shadow Planet, 3.63 to 4.06 million kilometres, on ecliptic plane of the Earth.

D- Ecliptic- The plane of the Earth's orbit around the Sun (Figure-4).

E- Ayanamsa- The angular difference between the Vernal equinoctial (Spring equinox) and sidereal zodiac is known as Ayanamsa (Figure-6).

F- Sidereal (Nirayana) Zodiac is moving with respect to the Earth (Figure-6 &7).

G- Tropical (Sayana) Zodiac is fixed with respect to the Earth.

H- Vernal / Autumn Equinoctial (Equinox)- The time when the Sun crosses the plane of the Earth's equator (21st March Vernal (Spring) equinox and 22nd September Autumn equinox).

I- Paksha- The word paksha refers to the exact opposite position from a fixed star (180° opposite).

J- Celestial Equator- The extension of the Earth's equator into space (celestial sphere).

K- Aries-0°- Opposite to the star Spica-180° (Chitra nakshatra) in Virgo sign, is the Aries-0° (Figure-5). Star Spica is 250 light years away from the Earth.

L- The Moon orbital plane- This plane is inclined by about 5.1° (4.99° to 5.3°) with respect to the Earth Ecliptic plane (Figure- 10A & 10).

M- Precession- The Earth precession is a slow wobble of its rotational axis, much like a spinning top. The rotational axis is rotating clockwise (viewed from the celestial north of the Earth). Earth is rotating anti-clockwise around its own axis (viewed from the celestial north of the Earth) (Figure-8).

N- Rate of Precession- The present rate of precession is around 50'' (50 seconds) per year. A complete cycle takes 26000 years (approximately) around the zodiac. The Sun's and the Moon's gravity is the cause of the Earth's changing angle.

O-Due to Precession- Sidereal/Nirayana Zodiac is moving 1.4°(approx.) per century.

P- Angles of Planets and Ascendant- For calculating angles of planets, the line between star Spica and Aries-0° passes through the centre of the Earth (Figure-7). For calculating Ascendant degrees, this line passes through the birth place of the child (Figure-9, 20 and 21).

Q- Rahu and Ketu (Figure-10):

- 1- **North node Rahu-** Point on Ecliptic plane, when the Moon while revolving around the Earth passes through the ecliptic plane towards the Northern Hemisphere of the Earth.

- 2- **South node Ketu**-Point on Ecliptic plane, when Moon while revolving around the Earth passes through the ecliptic plane towards Southern Hemisphere of the Earth.
- 3- When viewed from the celestial North of the Earth, the nodes rotate clockwise around the Earth. Opposite to the Earth's own spin and its revolution around the Sun. The line of nodes rotates with a period of 18.6 years per rotation or 19.5° per year.
- 4- **Eclipse** occurs on the Earth, when while rotating Sun, Moon, Earth, Rahu, and Ketu come in a line.
- 5- Astrologers use two types of degrees (calculations) for Rahu (North lunar node). Mean Rahu degrees (average speed) and True Rahu degrees (actual real time position). **Mean Rahu** is a smooth average of its motion. Mean Rahu is always in retrograde (backward) motion.

True Rahu represents its actual observed position. True Rahu motion is not perfectly smooth on a retrograde path; it wobbles and can shift direction temporarily. True Rahu have periods of direct (forward) motion and sometimes become stationary (stand still) also. True Rahu direct (forward) motion periods can occur 2-4 times a year and may last for few days (typically 15-25 days per year). True Rahu can also become stationary or appear to stand still, especially near eclipses lasting up to 5-10 days.

Zodiac- (viewed from the celestial North of the Earth)

Solar System- (Viewed from the celestial North of the Earth):

Heliocentrism- Sun as the centre of the World. Moon-Mon/ Mercury-Mec/ Venus-Ven/ Earth / Mars-Mar/ Jupiter-Jup/ Saturn-Sat.

Figure-2

Geo-centrism- (Viewed from the celestial North of the Earth).

Earth as the centre of the World. Moon-Mon / Mercury-Mec / Venus-Ven / Earth / Mars-Mar / Jupiter-Jup / Saturn-Sat.

Earth: (Viewed from the celestial North of the Earth).

Zodiac and Earth:

Figure-5

Ayanamsa- Tropical (Sayana) Zodiac is fixed. Due to precession of Earth, Sidereal (Nirayana) Zodiac is moving anti-clockwise around 50'' (50 seconds) per year (1.4° per century) (Viewed from the celestial North of the Earth). Angular difference between Aries-0° of the Tropical Zodiac and Aries-0° of the Sidereal Zodiac is Ayanamsa. With the passage of time, degrees of Ayanamsa are increasing.

Famous astrologers have their own different Ayanamsa's. For example-

Sl. No	Famous Astrologers	Ayanamsa	Date
1	Lahiri Ayanamsa	24°:12':54''	1-09-2025
2	Raman Ayanamsa	22°:46':16''	1-09-2025
3	K P Old Ayanamsa	24°:07':14''	1-09-2025
4	K P New Ayanamsa	24°:07':30''	1-09-2025
5	Khullar Ayanamsa	24°:12':16''	1-09-2025

Due to different Ayanamsa an error of around 30 days (average) comes in Maha Dasha calculations.

Nirayana (Sidereal) Zodiac with Geo-centrism Solar system:

Viewed from the celestial North of the Earth. Earth as the centre of the World.

Figure-7

Precession- The Earth precession is a slow wobble of its rotational axis, much like a spinning top. The rotational axis is rotating clockwise (viewed from the celestial north of the Earth). Earth is rotating anti-clockwise around its own axis (viewed from the celestial north of the Earth). At present rate of precession is around 50'' per year. A complete cycle takes 26000 years (approximately) around the zodiac. North Star, Polaris is approximately 433 to 448 light years away from the Earth.

Figure-8

Ascendant and its degree- A child is born at Birth Place A, Birth Time is B, and Birth Date is C on the North Hemisphere of the Earth. Line between star Spica and Aries-0° passes from the birth place A (on the surface of the Earth) of the child. In this diagram degrees of East (E) are the degrees of Ascendant (P). Degrees of East (E) are between 30° to 60° i.e., in sign Taurus. Taurus is the Ascendant sign. Degrees of East (E) are calculated with high accuracy.

Figure-9

Sun- Earth and Moon orbit: (Viewed from the celestial North of the Earth).

Moon orbit plane is around 5.1° inclined (Y) with respect to Earth Ecliptic plane.

Figure-10A

The Moon orbital plane is inclined about 5.1° (4.99 to 5.3) with respect to the Earth Ecliptic plane. **North node Rahu**-Point on Ecliptic plane where the Moon revolving around the Earth, passes through the Ecliptic plane towards the northern hemisphere of the Earth. **South node Ketu**-Point on Ecliptic plane where the Moon revolving around the Earth, passes through the Ecliptic plane towards the southern hemisphere of the Earth. When viewed from the celestial north of the Earth, the nodes move clockwise around the Earth (opposite to Earth's own spin and its revolution around the Sun). The line of nodes rotates with a period of 18.6 years per rotation or 19.5° per year (Clockwise). Eclipse occurs on the Earth, when while rotating the Sun, Moon, Earth, Rahu, and Ketu come in a line.

CHAPTER-B

A- Astronomical data required for Astrological calculations:

Heavenly bodies are always moving in the Zodiac. Based on the position of heavenly bodies in the zodiac, astrological calculations are done. For human being, based on their birth time, birth date and birth place, position (degrees) of heavenly bodies and the degrees of Ascendant are calculated. Which are required for astrological calculation:

1-True position (degrees) of planets (Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn, Rahu and Ketu) and degrees of Ascendant.

2-Ascendant Chart.

3-From degrees of Moon-Constellation (nakshatra) and Dasha's periods are calculated.

There are twelve houses, twelve signs and nine planets in a Chart. Each house is allotted a sign. Planets are placed in a chart as per their position in the zodiac at birth time. Degrees of planets are calculated as per centre of the Earth, according to their positions in the zodiac. Degrees of Ascendant are calculated as per birth place of child on surface of the Earth.

In a chart, each house, each sign, and each planet have their own characteristics. Based on these characteristics each house capacity, goodness, shortcoming, and remedies are studied. The sign in the first house is called Ascendant sign and its lord is called Ascendant lord. Twelve types of Ascendant signs are-- Aries-Ascendant, Taurus-Ascendant, Gemini-Ascendant, Cancer-Ascendant, Leo-Ascendant, Virgo-Ascendant, Libra-Ascendant, Scorpio-Ascendant, Sagittarius-Ascendant, Capricorn-Ascendant, Aquarius-Ascendant and Pisces-Ascendant (Figure-22 & 23).

There are many Apps available on Google Play Store for making horoscopes and getting astrological data, for example AstroSage AI Kundli app. With the help of these apps, we can get necessary astrological data for studying horoscopes. If anyone wants to learn how to make horoscopes, there are many books available on this subject too.

B- Houses and their Characteristics- Basic characteristic of each house and the subjects to be studied from each house are given below (Figure-12):

- 1- First House- Self, Nature, Character, Temperament, Health, Satisfaction.
- 2- Second House- Finances, Ability to express, Close relative, Speech.
- 3- Third House- Younger brother and sisters, Courage.
- 4- Fourth House- Mother, Property, Vehicle, Peace of mind.

- 5- Fifth House- Education, Intelligence, Children.
- 6- Sixth House- Sickness, Enemies, Court cases, Debt.
- 7- Seventh House- Marriage, Personal relations, Relationships.
- 8- Eighth House- Sorrows, Obstacles.
- 9- Ninth House- Luck, Foreign travels, long journeys, Worship.
- 10- Tenth House- Profession, Career, Job, Business, Honour.
- 11- Eleventh House- Elder brothers and sisters, Profit, Gains, Friends, Income.
- 12- Twelfth House- Losses, Expenses, Misery, Changes.

C- Name of houses:

- 1- Angular or Kendra Houses—1, 4, 7 and 10.
- 2- Trine Houses----- 1, 5 and 9.
- 3- Trik or Dusthana Houses ---- 6, 8 and 12.
- 4- Trishadaya Houses----- 3, 6 and 11.

E- Signs, Sign's number, Lord of Signs, Exalted and debilitated planet of the sign:

F- Signs number and their lord. Exalted and debilitated planet of the sign:

Sl. No	Sign	Number	Lord	Exalted	Debilitated
1	Aries	1	Mars	Sun	Saturn
2	Taurus	2	Venus	Moon	----
3	Gemini	3	Mercury	----	----
4	Cancer	4	Moon	Jupiter	Mars

5	Leo	5	Sun	----	----
6	Virgo	6	Mercury	Mercury	Venus
7	Libra	7	Venus	Saturn	Sun
8	Scorpio	8	Mars	----	Moon
9	Sagittarius	9	Jupiter	----	----
10	Capricorn	10	Saturn	Mars	Jupiter
11	Aquarius	11	Saturn	----	----
12	Pisces	12	Jupiter	Venus	Mercury

G- Planets own sign, exalted sign, debilitated sign, aspect, and abbreviation:

Sl. No	Planet	Own sign	Exalted sign	Debilitated sign	Aspect	Abbreviation
1	Sun	Leo	Aries	Libra	7	Sun
2	Moon	Cancer	Taurus	Scorpio	7	Mon
3	Mars	Aries & Scorpio	Capricorn	Cancer	4, 7 & 8	Mar
4	Mercury	Gemini & Virgo	Virgo	Pisces	7	Mer
5	Jupiter	Sagittarius & Pisces	Cancer	Capricorn	5, 7 & 9	Jup
6	Venus	Taurus & Libra	Pisces	Virgo	7	Ven
7	Saturn	Capricorn & Aquarius	Libra	Aries	3, 7 & 10	Sat

H- Aspects of Planets (Figure-24 to 27):

Planet influences the house in which it is situated, similarly that planet influences the houses on which it has its aspects. Aspects of planets are as follows:

- 1- Sun aspects the seventh house from where it is situated.
- 2- Moon aspects the seventh house from where it is situated.
- 3- Mercury aspects the seventh house from where it is situated.
- 4- Venus aspects the seventh house from where it is situated.
- 5- Mars aspects fourth house, seventh house and eighth house from where it is situated.
- 6- Jupiter aspects fifth house, seventh house and ninth house from where it is situated.
- 7- Saturn aspects third house, seventh house and tenth house from where it is situated.
- 8- Scholars have different opinions on aspects of Rahu and Ketu. No aspect of Rahu and Ketu, is taken in this book.

I- Based on the experiences of their observations for decades, many scholars have found that the position of planets at different places in Nirayana Zodiac gives following results: (Figure-13):

1-Sun-

- a- When the Sun in the zodiac is between 0° to 30° (Aries), then the Sun gives the results of exalted position.
- b- When the Sun in the zodiac is between 120° to 150° (Leo), then the Sun gives good results.
- c- When the Sun in the zodiac is between 180° to 210° (Libra), then the Sun gives bad results.

2-Moon-

- a- When the Moon in the zodiac is between 30° to 60° (Taurus), then the Moon gives the results of exalted position.
- b- When the Moon in the zodiac is between 90° to 120° (Cancer), then the Moon gives good results.
- c- When the Moon in the zodiac is between 210° to 240° (Scorpio), then the Moon gives bad results.

3-Mars-

- a- When the Mars in the zodiac is between 270° to 300° (Capricorn), then the Mars gives the results of exalted position.
- b- When the Mars in the zodiac is between 0° to 30° (Aries) and 210° to 240° (Scorpio), then Mars gives good results.
- c- When the Mars in the zodiac is between 90° to 120° (Cancer), then the Mars gives bad results.

4-Mercury-

- a- When the Mercury in the zodiac is between 150° to 180° (Virgo), then the Mercury gives the results of exalted position.
- b- When the Mercury in the zodiac is between 60° to 90° (Gemini) and 150° to 180° (Virgo), then the Mercury gives good results.
- c- When the Mercury in the zodiac is between 330° to 360° (Pisces), then the Mercury gives bad results.

5-Jupiter-

- a- When the Jupiter in the zodiac is between 90° to 120° (Cancer), then the Jupiter gives the results of exalted position.

- b- When the Jupiter in the zodiac is between 240° to 270° (Sagittarius) and 330° to 360° (Pisces), then Jupiter gives good results.
- c- When the Jupiter in the zodiac is between 270° to 300° (Capricorn), then Jupiter gives bad results.

6-Venus-

- a- When the Venus in the zodiac is between 330° to 360° (Pisces), then the Venus gives the results of exalted position.
- b- When the Venus in the zodiac is between 30° to 60° (Taurus) and 180° to 210° (Libra), then the Venus gives good results.
- c- When the Venus in the zodiac is between 150° to 180° (Virgo), then the Venus gives bad results.

7-Saturn-

- a- When the Saturn in the zodiac is between 180° to 210° (Libra), then the Saturn gives the results of exalted position.
- b- When the Saturn in the zodiac is between 270° to 300° (Capricorn) and 300° to 330° (Aquarius), then the Saturn gives good results.
- c- When the Saturn in the zodiac is between 0° to 30° (Aries), then the Saturn gives bad results.

J- Retrograde planets (Figure-17 & 18):

Retrograde motion is an apparent change in the movement of the planet through the sky. It is not real; the planet does not physically start moving backwards in its orbit. It just appears to do so because of the relative positions of the planet & Earth and how they are moving around the Sun.

When a planet becomes retrograde in the Transit Chart, then as long as the planet is in retrograde state, it delays the result of efforts. Scholars have different opinions on retrograde planets in the Ascendant Chart.

K- Combust planets (Figure-14 to 16):

Planets are combusted when they come close to the Sun at certain degrees. Scholars have different opinions on the degrees at which a planet is combust i.e., how much away from the Sun in degrees, a planet is combust. On average, a planet 12° before to 12° after the Sun can be taken as combust. In the case of the Moon, 30° before to 30° after the Sun can be taken as combust. How much percent a planet is combust, is calculated as per the difference between the degrees of the Sun and the combust planet.

The reason for combustion of planets is that the gravitational force of the Sun is very-very high in comparison to the planets. In transit whenever a planet comes close to the Sun, the effect of gravitational force of that planet (on Earth) nullifies due to the Sun's excessive gravitational force. When the degrees of the Sun become equal to the degrees of the planet, the effect of that planet's gravitational force (on Earth) completely nullifies.

In the transit horoscope, if Maha Dasha lord or Antar Dasha lord is combust, then work hard during that combusted period of that planet.

In the Ascendant Chart, if the lord of the first house, fourth house, fifth house, seventh house, ninth house and tenth house are combusted, then astrological remedies can be done of that planet, for whole life, if required. When the lords of the remaining houses are combusted, then during the period of Maha Dasha's of those planets do astrological remedies after testing the gems stone to wear.

L- Combustion of Planets (P) Mercury and Venus (Outer side)-

Mercury and Venus are rotating on the outer side of the Sun. The planet is moving faster than the Sun. P- Planet. (Viewed from the celestial north of the Earth).

a- P-1: Combustion of the Planet starts. Angular difference between the Sun and the Planet is 12° . At angle (P-1, Earth, Sun-1).

b- P-2: Combustion of Planet is full. Angular difference between the Sun and the Planet is 0° . At angle (P-2, Earth, Sun-2).

c-P-3: Combustion of Planet finishes. Angular difference between the Sun and the Planet is 12° . At angle (P-3, Earth, Sun-3).

M- Combustion of Planets (P) Mercury and Venus (Inner side)- Mercury and Venus are rotating in between the Sun and the Earth. Planets are moving faster than the Sun. P- Planet. (Viewed from the celestial north of the Earth).

a- P-1: Combustion of Planet (P) starts. Angular difference between the Sun and the Planet is 12° . At angle (P-1, Earth, Sun-1).

b- P-2: Combustion of Planet (P) is full. Angular difference between the Sun and the Planet is 0° . At angle (P-2, Earth, Sun-2).

c- P-3: Combustion of Planet (P) finishes. Angular difference between the Sun and the Planet is 12° . At angle (P-3, Earth, Sun-3).

N- Combustion of Planets (P)- Mars, Jupiter, and Saturn-

The Sun is moving faster than the planet. The Sun is in between Earth and planet. (Viewed from the celestial north of the Earth).

- a- S-1: Combustion of Planet (P) starts. (S-1 & S-2) Angular difference between the Sun and the Planet is 12° . At angle (P-1, Earth, Sun-1).
- b- S-3: Combustion of Planet (P) is full. (S-3) Angular difference between the Sun and the Planet is 0° . At angle (P-2, Earth, Sun-3).
- c-S-5: Combustion of Planet (P) finishes. (S-4 & S-5) Angular difference between the Sun and the Planet is 12° . At angle (P-3, Earth, Sun-5).

O- Retrograde motion of planets (P), Mercury, and Venus- The planets Mercury and Venus remain retrograde in motion during the time of inferior conjunction with the Sun. They rotate in clockwise direction in the Zodiac with respect to the Earth. Mercury retrogrades, when angular distance between Mercury and the Sun is on either side approximately 14° to 22° . Venus retrogrades, when angular distance between Venus and the Sun is on either side approximately 29° . (Viewed from the celestial north of Earth).

P- Retrograde motion of planets Mars, Jupiter, and Saturn- The Earth and planets are rotating around the Sun in anti-clockwise direction. The rotational speed of the Earth is more than Mars, Jupiter, and Saturn. When the Earth and Mars/ Jupiter / Saturn (either or all) are rotating on the same side of the Sun, it appears in the sky that these planets are rotating backwards in the zodiac, due to faster speed of the Earth than the planets. Retrograde motion is an apparent change in the movement of the planet through the sky. It is not real; the planet does not physically move backwards in its orbit. It just appears to do so, because of the relative positions of the planets and Earth in the Zodiac.

Mars retrogression starts, when angular distance between Mars and the Sun is about 228° . Mars becomes direct when angular distance between Mars and Sun is about 132° .

Jupiter retrogression starts, when angular distance between Jupiter and the Sun is about 245° . Jupiter become direct when angular distance between Jupiter and Sun is about 115° . Saturn retrogression starts when angular distance between Saturn and the Sun is about 251° . Saturn becomes direct when angular distance between Saturn and Sun is about 109° . (Viewed from the celestial north of the Earth).

- k- With experience, marches towards perfection.

8- **Rahu-**

- a- Gives sharp intelligence.
- b- Gives results according to the characteristic of the lord of the zodiac sign in which Rahu is placed.
- c- Gives results according to the characteristics of planets with which it is placed.
- d- Gives results according to the characteristics of planets whose aspects are falling on Rahu.
- e- Gives results according to the characteristics of the house in which it is placed.

9- **Ketu-**

- a- Gives disorientation.
- b- Gives results according to the characteristics of the lord of the zodiac sign in which Ketu is placed.
- c- Gives results according to the characteristics of planets with which it is placed.
- d- Gives results according to the characteristics of planets whose aspects are falling on Ketu.
- e- Gives results according to the characteristics of the house in which it is placed.

R- Constellation details consist of the following:

1. Name of constellation
2. Pada of constellation
3. First word of person's name
4. Sign
5. Varna
6. Yoni
7. Sign lord
8. Gana
9. Nadi

1. Every constellation has four padas. Hence all 27 numbers of constellations have -- $27 \times 4 = 108$ numbers of padas.
2. Constellation details of boy and girl are required for horoscope matching at the time of marriage.
3. For marriage it is necessary to study Manglik Dosh of both boy and girl.
4. Types of **Manglik** dosh are following-
 - a- Lagan Manglik (Mars in first house of Ascendant Chart) ---- medium Manglik.
 - b- 4th and 12th Manglik (Mars in 4th or 12th house of Ascendant Chart) -light Manglik.
 - c- 7th and 8th Manglik (Mars in 7th or 8th house of Ascendant Chart) -- full Manglik.
5. If Rahu or Ketu is with Mars in 1st, 4th, 7th, 8th or 12th house, increases Manglik dosh.
6. Analysing the seventh house of horoscope is most difficult.
7. For marriage, it is necessary to study the first & seventh houses of both boy and girl.
8. One can get details of constellations in Almanac (Panchaang).
9. Person with Gana rakshasa, sometimes become ruthless.
10. Manglik dosh, gives aggression and dominates the partner.
11. In the Ascendant Chart, if Mars is placed in 6th or 10th house, gives characteristics of Mars in the personality of person (16.67% of world population).
12. 41.67% of world population have mangal dosh.
13. 33% of world population have Gana rakshasa.
14. People with both mangal dosh and Gana rakshasa are hard with their near and dear ones. Also, they do things as they desire.

S- Major Period (Maha Dasha):

Many unknown scholars have done hard penance throughout their lives to find out the time period of Maha Dasha of the planets. It has taken a very long time to complete this difficult task. After that, period of Maha Dasha of planets, in years were known.

There are more than 40 types of Mahas Dasha's. Most common are Vimshottari Dasha, Ashtottari Dasha, Yogini Dasha, Kala chakra Dasha, Chara Dasha etc. Vimshottari Maha Dasha is most popularly used and is believed to be the most accurate by astrologers. Vimshottari Maha Dasha is taken for calculations in this book also.

There are five types of Dasha's; Maha Dasha, Antar Dasha, Pratyantar Dasha, Sukshma Dasha and Prana Dasha. If the time of birth is accurate, then only Pratyantar Dasha, Sukshma Dasha and Prana Dasha can be studied.

Vimshottari Dasha:

Vimshottari Maha Dasha is calculated from the degrees of the Moon. Every planet has its own period of Maha Dasha and represents one constellation, which are, as follows:

1- Ketu -----	7 years
2- Venus-----	20 years
3- Sun-----	6 years
4- Moon-----	10 years
5- Mars-----	7 years
6- Rahu-----	18 years
7- Jupiter-----	16 years
8- Saturn-----	19 years
9- <u>Mercury-----</u>	<u>17 years</u>
<u>9 Number Constellation-----Total=120 years</u>	

Angular movement of Moon to cover 9 number of constellations is $(13^{\circ}-20')$ X 9 = 120°

Total number of constellations are 27 (9 X 3).

For 27 number of constellations, Maha Dasha period is $120 \times 3 = 360$ years.

For 27 number of constellations, Moon's angular movement is $120^{\circ} \times 3 = 360^{\circ}$

One revolution of the Moon around the Earth.

- 1- Always everyone is under the influence of Maha Dasha, Antar Dasha etc.
- 2- If there is an error of a few minutes in noting the birth time, then the results of Pratyantar Dasha, Sukshma Dasha and Prana Dasha cannot be analysed.
- 3- The results of Maha Dasha are known from the Ascendant Chart.
- 4- The results of Antar Dasha are known from the Dasha Chart.
- 5- In the Transit Chart planets of Maha Dasha and Antar Dasha are studied with more priority than other planets.
- 6- Maha Dasha- 9 no's planets = 120 years of Maha Dasha = 120° Moon's movement.
- 7- Antar Dasha- -- $9 \times 9 = 81$ numbers Antar Dasha in 120 years.
- 8- Pratyantar Dasha— $9 \times 9 \times 9 = 729$ numbers Pratyantar Dasha in 120 years.
- 9- Sukshma Dashes— $9 \times 9 \times 9 \times 9 = 6561$ numbers Sukshma Dashes in 120 years.
- 10-Prana Dasha-- $9 \times 9 \times 9 \times 9 \times 9 = 59049$ numbers Prana Dasha in 120 years.
- 11-Smallest Prana Dasha is of Sun/Sun/Sun/Sun/Sun, only 19 min. and 26.4sec.
- 12-Longest Prana Dasha is of Venus/Venus/Venus/Venus/Venus, of 5 days and 13 hrs.
- 13-Smallest Sukshma Dasha is of Sun/Sun/Sun/Sun, of 6 hours, 28 min. and 48 sec.
- 14-Longest Sukshma Dasha is of Venus/Venus/Venus/Venus, of 33 days and 7.92 hrs.

T- Antar Dasha (Sub-period): To study Antar Dasha draw a new chart (Dasha Chart), put the planet of Maha Dasha in the first house along with its sign. Accordingly mark the other planets with their signs of the Ascendant Chart, in this new chart (Dasha Chart). Results of Antar Dasha are studied from this Dasha Chart. Duration of periods of Maha Dasha, Antar Dasha, Pratyantar Dasha etc. can be obtained from the AstroSage AI Kundli app. or any other app of astrology from Google Play Store.

V- Reasons for errors in Astrological calculations:

- 1- Astrologers have given different-different Ayanamsa, due to which there is a difference in the calculation of Maha Dasha period.

Ayanamsa in July, 2023

- a- Lahiri----- $24^{\circ}-11'-9''$
- b- Raman----- $22^{\circ}-44'-30''$
- c- K.P. Old-- $24^{\circ}-5'-29''$
- d- K.P. New-- $24^{\circ}-5'-45''$
- e- Khullar---- $24^{\circ}-10'-31''$

Neglecting Raman Ayanamsa there is a difference of around 5' (5 minutes) in various Ayanamsa's.

Moon's 120° movement = 120 years of Maha Dasha

Moon's 1° movement = 1 year = 365.25 days of Maha Dasha

Moon's 5' movement = $(365.25 \times 5)/60 = 30.44$ days of Maha Dasha

Error of 30.44 days (average) in Maha Dasha calculation, due to different Ayanamsas.

- 2- For the birth place, same longitude is taken of the entire city. Whereas every place in the city has a different longitude. This leads to some error in the calculation of degrees of Ascendant. If the degrees of Ascendant are on the border of two zodiac signs, then study the horoscope with both the border signs Ascendant. If degrees of Ascendant are more than 29° or less than 1° , then study the horoscope with both border zodiac signs (Example-13).

- 3- If there is an error of one minute in noting the birth time of a child. Then how many days of error will be in calculation of Maha Dasha?

The average time to cover 9 number of constellations, Moon's takes 9 days. Which is equal to 120 years of Maha Dasha period.

9 days' time period= 120 years of Maha Dasha

$9 \times 24 \times 60$ -minute time period = 120 X 365.25 days of Maha Dasha

1 minute time period = $(120 \times 365.25)/9 \times 24 \times 60 = 3.38$ days of Maha Dasha period.

If there is an error of one minute in noting the birth time, then there is an error of 3.38 days in Maha Dasha calculation.

- 4- Scholars have different opinions, which moment is considered as the birth time of the child. If we consider the different opinions of all scholars, there will be a difference of around 5 minutes in the birth time of the child. Doctors say that, usually during the birth of a child, their attention is on the child and the mother. After

everything is fine, they (Doctors) subtract 15-20 minutes from that time and enter the birth time in the records.

- 5- In astrology many scholars have different opinions on the same topic. Studying astrology requires a great deal of hard work, experience, and patience.
- 6- Horoscopes are studied on an individual basis. But many people read about their future in newspapers, magazines etc., based on their birth dates, Moon sign, Sun sign, first letter of their name etc., which usually come inaccurate.
- 7- Nine planets, twelve zodiac signs, twelve houses and 27 constellations are considered for the analysis of the horoscope. But there is no place for the Earth in the horoscope. It means that what impact of Earth has on the horoscope is not known. Sometimes analysis of horoscopes comes out to be inaccurate. Perhaps the reason for this may be, not considering the influence of the Earth. Research is needed.
- 8- Calculating degrees of Ascendant:
 - 1- It is easy to find out the degrees of the Ascendant of a child born between latitude 0° to 45° North and 0° to 45° South.
 - 2- It is slightly tough to calculate degrees of Ascendant of a child born between latitude 45° to 66° North and 45° to 66° South. Hence calculate degrees of Ascendant carefully and check twice.
 - 3- It is tough to calculate degrees of Ascendant of a child born above latitudes 66° North or 66° South. Hence calculate degrees of Ascendant very carefully and check thrice.
- 9- Many countries have established different time zones for different locations in their country. In addition, they made changes in summer time and winter time for daylight saving. Due to different time zones, there is a possibility of errors in preparing horoscopes of babies born in these countries. So, prepare horoscopes with caution.
- 10- Some scholars take degrees of true Rahu, while others take degrees of mean Rahu in a horoscope. There is often difference between the degrees of true Rahu and mean Rahu. In transit when Rahu changes its zodiac sign, it is difficult to decide in which zodiac sign is Rahu (Example-12). Research is required.
- 11- Due to the above reasons, it becomes difficult to study the Pratyantar Dasha, Sukshma Dasha, Prana Dasha and Divisional Charts of a horoscope.
- 12- When the Ascendant and Planets are changing zodiac signs, do analysis of horoscopes carefully.

W- Zodiac and Planets in Ascendant Chart:

Degrees of planets are calculated with high accuracy. Line between star Spica and Aries-0° passes through centre of the Earth. View from the celestial North of the Earth.

In Zodiac Planets are placed in the following signs (Figure-19)			Ascendant- Virgo (Figure-20)
Mars- Gemini	Sun and Venus- Pisces	Moon- Leo	Jupiter- Virgo
Mercury and Saturn- Aquarius		Rahu in Taurus / Ketu in Scorpio	

Degrees of Ascendant (Example-1)

Child born at place A on the Earth. The sign rising in the East is Virgo. Hence, Virgo is the Ascendant sign of the Ascendant Chart. Degrees of Ascendant are calculated with high accuracy. The line between Star Spica and Aries-0° passes from birth place (A) of the Child. Viewed from the celestial North of the Earth.

Degrees of Ascendant (Example-2)

Child born at place B on the Earth. The sign rising in the East is Capricorn. Hence, Capricorn is the Ascendant sign of the Ascendant Chart. Degrees of Ascendant are calculated with high accuracy. The line between Star Spica and Aries-0° passes from birth place (B) of the child. Viewed from the celestial North of the Earth

CHAPTERS-C

Horoscope analysis:

Initially start from analysis of twelve houses of Ascendant Chart only-

A- First house- Analysis of the Ascendant (first) house can be divided into two parts.

A.1- Perform a general analysis of the Ascendant (first) house.

A.2- Perform an in-depth analysis of the Ascendant (first) house.

A.1- Analyse the Ascendant (first) houses in the following manner (Study around 10 different charts):

- 1- The characteristics of the sign ruling the Ascendant house are reflected in the personality of the person. For example, if the sign of the Ascendant house is Capricorn, whose lord is Saturn, then the person will have characteristics of Saturn (refer pages 24 to 26) in his personality, such as- having wisdom, caring nature, being sensitive, being just, being God fearing, being punctual towards duties, being lazy in self, being hardworking, have patience, with experience goes towards perfection etc.
- 2- The characteristics of planets placed in the Ascendant house are reflected in the personality of the person. For example, if Mercury and Venus are placed in the Ascendant house then the person will have characteristics of Mercury and Venus (refer pages 24 to 26) in his personality, such as- being intelligent, being alert, being clever, knowing how to make arrangements, being able to convince others with speech, having self-priority, love towards music, painting, acting etc., being cheerful, good in love and romance, good in relationships etc.
- 3- The characteristic of planets whose aspects are falling in the Ascendant house are reflected in the personality of the person. For example, if the Sun's aspect is falling on the Ascendant house, then the person will have characteristics of the Sun (refer pages 24 to 26) in his personality, such as- influence people, caring for honour and respect, being optimistic, energetic, possessing leadership qualities, having authority etc.

A.2- Analyse the Ascendant (first) house of the Ascendant Chart in-depth by incorporating the above points in the following points (study around 15 more different charts):

- 4- The lord of the Ascendant house is in its exalted sign; the characteristic of exalted planet will be present in the personality of that person with greatness.
- 5- An exalted planet is placed in the Ascendant house; the characteristic of exalted planet will be present in the personality of that person with greatness.

- 6- The exalted aspect of a planet is falling on the Ascendant house; the characteristic of that planet will be present in the personality of that person with greatness.
- 7- The lord of the Ascendant house is placed in Ascendant house or aspect own first house; the characteristic of that planet will increase results of action with positivity.
- 8- The lord of the Ascendant house is placed in debilitated sign; the characteristics of debilitated planet will affect negatively. If someone provokes this person even slightly, will receive a reaction.
- 9- Debilitated planet is placed in the Ascendant house; the characteristics of debilitated planet will affect negatively. If someone provokes this person even slightly, will receive a reaction.
- 10- Debilitated aspect of a planet is falling on the Ascendant house; the characteristic of that planet will affect negatively. If someone provokes this person even slightly, will receive a reaction.
- 11- The lord of Ascendant house is placed in fifth house or ninth house; the person's luck will favour him. The results of actions are greater than action.

- 14- The lord of Ascendant house is combusted, the characteristics of that planet will decrease and the person's abilities will decline. To increase the results, do hard work and astrological remedies.
- 15- Lord of Ascendant house placed in the second house, third house, fourth house, seventh house, tenth house or eleventh house, will increase the characteristic of that house.
- 16- The sign of the Ascendant house is Aries or Scorpio; the personality of that person will have characteristics of Mars.
- 17- In the Ascendant Chart, Mars is placed in the first house, sixth house, seventh house or tenth house. The personality of that person will have characteristics of Mars.
- 18- The sign of the Ascendant house is Taurus or Libra; the personality of that person will have characteristics of Venus.
- 19- In the Ascendant Chart, Venus is placed in the first house or seventh house. The personality of that person will have characteristics of Venus.
- 20- The sign of the Ascendant house is Gemini or Virgo; the personality of that person will have characteristics of Mercury.

- 21- In the Ascendant Chart, Mercury is placed in the first house or seventh house. The personality of that person will have characteristics of Mercury.
- 22- The sign of the Ascendant house is Cancer; the personality of that person will have characteristics of the Moon.
- 23- In the Ascendant Chart, the Moon is placed in the first house or seventh house. The personality of that person will have characteristics of Moon.
- 24- The sign of the Ascendant house is Leo; the personality of that person will have characteristics of the Sun.
- 25- In Ascendant Chart, the Sun is placed in first house or seventh house. The personality of that person will have characteristic of Sun.
- 26- The sign of the Ascendant house is Sagittarius or Pisces; the personality of that person will have characteristics of Jupiter.
- 27- In the Ascendant Chart, Jupiter is placed in the first house, fifth house, seventh house or ninth house. The personality of that person will have characteristics of Jupiter.
- 28- The sign of the Ascendant house is Capricorn or Aquarius; the personality of that person will have characteristics of Saturn.
- 29- In the Ascendant Chart, Saturn is placed in the first house, fourth house, seventh house or eleventh house. The personality of that person will have characteristics of Saturn.
- 30- In the Ascendant Chart, Rahu is placed in the first house, the personality of that person will have characteristics of Rahu.
- 31- In the Ascendant Chart, Ketu is placed in the first house, the personality of that person will have characteristics of Ketu.

B- Second house:

- 1- The lord of the second house is in its exalted sign, will increase the results of the second house with positivity.
- 2- Exalted planet is placed in the second house, will increase the results of second house with positivity.
- 3- The exalted aspect of a planet falling on the second house, it will increase the results of the second house with positivity.
- 4- The lord of the second house is placed in the second house or aspect own second house; it will increase the results of the second house with positivity.
- 5- The lord of the second house is placed in debilitated sign; the results of the second house will be achieved after hard work and with patience.
- 6- Debilitated planet is placed in the second house; the results of the second house will be achieved after hard work and with patience.

- 7- The debilitated aspect of a planet is falling on the second house; the results of the second house will be achieved after hard work and with patience.
- 8- The lord of the second house is placed in the first house, fifth house or ninth house, the results of action will be greater than action of the second house.
- 9- The Lord of the first house, fifth house or ninth house is placed in the second house, the results of action will be greater than action of the second house.
- 10- The lord of second house is placed in sixth house, eighth house or twelfth house, the results of the second house will be achieved after hard work and with wisdom.
- 11- The lord of the second house is combusted; the results of the second house will be achieved after hard work.
- 12- Lord of second house is placed in the third house, fourth house, seventh house, tenth house or eleventh house, the results of action of the second house will be achieved.

C- Third house:

- 1- The lord of the third house is in its exalted sign; will increase the results of the third house with positivity.
- 2- Exalted planet is placed in the third house, will increase the results of the third house with positivity.
- 3- The exalted aspect of a planet falling on the third house, it will increase the results of the third house with positivity.
- 4- The lord of the third house is placed in the third house or aspect own third house; it will increase the results of the third house with positivity.
- 5- The lord of the third house is placed in debilitated sign; the results of the third house will be achieved after hard work and with patience.
- 6- Debilitated planet is placed in the third house; the results of the third house will be achieved after hard work and with patience.
- 7- The debilitated aspect of a planet is falling on the third house; the results of third house will be achieved after hard work and with patience.
- 8- The lord of the third house is placed in the first house, fifth house or ninth house, the results of action will be greater than action of the third house.
- 9- The Lord of the first house, fifth house or ninth house is placed in the third house, the results of action are greater than action of the third house.
- 10- The lord of the third house is placed in the sixth house, eighth house or twelfth house, the results of the third house will be achieved after hard work and with wisdom.
- 11- The lord of the third house is combusted; the results of the third house will be achieved after hard work.

- 12- The lord of the third house is placed in the second house, fourth house, seventh house, tenth house or eleventh house, the results of action of the third house will be achieved.

D- Fourth house:

- 1- The lord of the fourth house is in its exalted sign, will increase the results of the fourth house with positivity.
- 2- Exalted planet is placed in the fourth house, will increase the results of fourth house with positivity.
- 3- The exalted aspect of a planet falling on the fourth house, it will increase the results of the fourth house with positivity.
- 4- The lord of the fourth house is placed in the fourth house or aspect own fourth house; it will increase the results of the fourth house with positivity.

There are approximately 200 Transit Charts in a year. Approximately 144 Transit Charts are of Moon transit and the rest approximately 56 Transit Charts are of other planets' transit.

For a microscopic study of a horoscope; Ascendant Chart, Maha Dasha, Antar Dasha from Dasha Chart and Transit Charts, all are necessary to study in combined way.

The time period of planets in twelve houses in the Transit Chart:

Sl. No	Planet	Time period	Number of Transit
1	Moon	27.3 days	12 noes
2	Sun	1 year	12 noes
3	Mercury	1 year (approx.)	12 noes
4	Venus	1 year (approx.)	12 noes
5	Mars	2.5 years (approx.)	12 noes
6	Jupiter	12 years (approx.)	12 noes
7	Rahu	18 years (approx.)	12 noes
8	Ketu	18 years (approx.)	12 noes
9	Saturn	30 years (approx.)	12 noes

- 1- Start with studying the Ascendant (first) house of around 25 no's Ascendant Charts. When you feel that you are describing the personality of the person correctly. Then start studying all the twelve houses of the Ascendant Chart.
- 2- After studying the Ascendant Charts of about 50 horoscopes, start studying Maha Dasha also. After studying the Ascendant Charts and Maha Dasha of about 25 more

horoscopes, start studying Antar Dasha from the Dasha Chart. You will find that you are becoming more adept at analysing horoscopes.

- 3- After studying about 100 more horoscopes, start analysing the Transit Chart along with Ascendant Chart, Maha Dasha and Antar Dasha from Dasha Chart. Now you will find that you are able to analyse short-term periods accurately.
- 4- Now you can start suggesting astrological remedies.
- 5- After analysing about 300 horoscopes, you will realize that heavenly bodies determine the nature of a person by birth and to some extent determine fortunes and misfortunes of that person by birth.
- 6- Thereafter you can further enhance your analytical ability by studying the **planetary conjunctions and yoga's of planets**.
- 7- There are 16 numbers of **Divisional Charts**. Scholars believe that analysing Divisional Charts along with Ascendant Chart, increases accuracy. The name of Divisional Charts and the time period of the Ascendant house are as follow:

Sl. No	Name of divisional chart	Time period of Ascendant house
1	D-1	120 minutes (approx.)
2	D-2	60 minutes (approx.)
3	D-3	40 minutes (approx.)
4	D-4	30 minutes (approx.)
5	D-7	17.14 minutes (approx.)
6	D-9	13.33 minutes (approx.)
7	D-10	12 minutes (approx.)
8	D-12	10 minutes (approx.)
9	D-16	7.5 minutes (approx.)
10	D-20	6 minutes (approx.)
11	D-24	5 minutes (approx.)
12	D-27	4.44 minutes (approx.)
13	D-30	4 minutes (approx.)
14	D-40	3 minutes (approx.)
15	D-45	2.67 minutes (approx.)
16	D-60	2.0 minutes (approx.)

- 8- Usually, errors occur in noting the time of birth. Study the Divisional Charts only if you know the exact time of birth.

- 13- Cats eye (Ketu) - In silver ring, middle finger of the right hand, from Saturday.

Note-

i-Left-handed people- Wear the gemstones on the fingers of the left hand.

ii-Gemstones can be placed in lockets and worn around the neck as needed. However, gemstones provide greater benefits when worn on the fingers on their mounts.

E-The gemstones are worn on the day specified above, but before wearing the gemstones, a ritual is carried out, i.e., they are purified and worshipped. The procedure for purification, is given below:

- 1- To purify the gemstones, soak them in raw milk for 30 minutes.
- 2- Then, immerse the gemstone in Ganga water or Holy water for 30 minutes.
- 3- During the daytime, place the gemstone at a worship place at home. Light incense and perform prayer.
- 4- On completion of the ritual wear the gemstone, as specified.

F- Few gemstones (lords of 3rd, 6th, 8th, 11th and 12th houses of Ascendant Chart) have very powerful effect over one's body and mind. Thus, they have to be worn only when specified and after testing it only. As a precautionary measure one must decide and should not move out of the house on the day he/she wear these gemstones. One must strictly follow this rule, for his/ her/ their own safety. After wearing them if you feel good or you do not feel anything, then keep wearing the gemstone. But in case, if you feel uneasiness, then take them off immediately. Wear the same gemstone next week after testing them again. Many gemstones become suitable after trying them two to three times. If gemstones do not seem suitable even after trying them for three times. Then replace that gemstone with another one. If replaced gemstones suits, it is good to continue wearing them. If the replaced gemstone does not seem suitable even after trying them for three times, then that gemstone should not be worn at all.

G- The gemstones value in carat (one carat=200 mg) or Ratti (one Ratti=181 mg) is determined based on the position of the planet, in the Ascendant Chart. The gemstone value is also determined based on the person's age and body weight.

H- If the Ascendant lord is weak (combust, in sixth house, in eighth house, in twelfth house, in debilitation etc.) in the Ascendant Chart, wear the gemstone of Ascendant house lord throughout life. This will benefit your health, self-satisfaction, and personality.

I- If the fifth house lord is weak (combust, in sixth house, in eighth house, in twelfth house, in debilitation etc.) in the Ascendant Chart, wear the gemstone of fifth house lord throughout life. This will benefit your education, intelligence, and happiness from children.

J- If the ninth house lord is weak (combust, in sixth house, in eighth house, in twelfth house, in debilitation etc.) in the Ascendant Chart, wear the gemstone of the ninth house lord throughout life. This will benefit your luck, prayers, and foreign travels.

K- Gemstones of third house lord, sixth house lord, eighth house lord, eleventh house lord and twelfth house lord of Ascendant Chart are only worn after carefully testing their compatibility, during the period of their Maha Dasha. As a precautionary measure one must decide and should not move out of the house on the day one wears such gemstones. Follow the instructions given at item number 'F'. These gemstones are removed as soon as the Maha Dasha of these planets ends.

L- Gemstones of first house lord, second house lord, fourth house lord, fifth house lord, seventh house lord, ninth house lord and tenth house lord of Ascendant Chart are worn during the period of their Maha Dasha or as required.

M- If in any way the time is not supporting, then the best solution is to become a saint during that period. If you achieve the results of your deeds, it is good. If you are not getting the results of your deeds after doing all remedies, don't overthink it. Anyhow pass that time. As that period is over, good time will come.

N- Mantras can be chanted to appease the planets. Chanting mantras also provide benefits. There are three types of mantras- Vedic mantras, Seed mantras. and Tantric mantras. Each planet has their Vedic mantras, Seed mantras, and Tantric mantras. In more difficult time chanting Maha Mrityunjaya Mantra is very beneficial.

O- Semi-precious stones are worn first. It takes around two months for the benefits to be felt. If further benefits are required, then only precious gemstones are worn. In special circumstances, precious gemstones are worn directly. Whilst purchasing precious stones, be sure to obtain a test certificate from a reputed Gem testing Laboratory.

P- Vegetarian Vs Non-Vegetarian Food:

For survival, food is essential for all living beings. All living beings are made of Bio-cells. All living beings need the bio-cell of other living beings as food.

Types of living beings:

- a- **Animalia Kingdom-** Animals have a brain, nervous system and feel pain.
- b- **Plant Kingdom-** Plants have no brain, no nervous system and do not feel pain.
- c- **Fungi Kingdom-** Fungi's have no brain, no nervous system and do not feel pain.
- d- **Bacteria-** Bacteria have no brain, no nervous system and do not feel pain.

Vegetarian Living beings- Vegetarian living beings need plants and fungi as food. Plants and fungi have no brain, no nervous system and do not feel pain when anybody eats them as food. Vegetarian living beings give no pain to other living beings, when they eat them. Vegetarian living beings are Sattvic in nature.

Non-Vegetarian Living beings- non-vegetarian living beings eat animals as food. Animals have a brain, nervous system and feel pain when anybody kills them for food. Non-vegetarian living beings give pain to other animals when they eat them as food. Non-vegetarian living beings are violent in nature. For humans, during bad times, it is good to avoid taking non-vegetarian food and get best benefits of astrological remedies.

: Ascendant Chart: Mean Rahu:

: Ascendant Chart: True Rahu:

There are two different types of degrees, of Rahu and Ketu. Some scholars take degrees of True Rahu while others take degrees of Mean Rahu in a horoscope. There is often a difference between the degrees of True Rahu and Mean Rahu. In transit when Rahu changes its zodiac sign, it is difficult to decide, in which zodiac sign is Rahu. In the above example also Rahu and Ketu are in different houses. It will be appropriate to study the Ascendant Charts with both True Rahu chart and Mean Rahu chart. Analyse the Maha Dasha of Rahu and Ketu from both the charts in such cases.

Rahu Maha Dasha--	12-12-2005 to 12-12-2023
Ketu Maha Dasha--	12-12-2075 to 12-12-2082

Analyse the Antar Dasha of Rahu and Ketu in the Maha Dasha's of other planets, from the both charts.

: Transit Chart:

When, this person will run Maha Dasha of Mercury and in Transit Chart Mercury will transit in Pisces sign (twelfth house). Mercury is debilitated in Pisces sign. Take following cautions:

- 1- When Mercury transits in Pisces sign, work with restraint during that period.
- 2- When, Mercury transits in Pisces sign in twelfth house and Mercury is retrograde, work with restraint and with patience during that period.
- 3- When Mercury transits in Pisces sign and Mercury is combusted, work with restraint and with patience during that period.
- 4- When, Mercury transits in Pisces sign. Mercury is retrograde and combusted both. Work with caution, restraint, and with patience during that period.

Example-15:

Saturn's (Shani) Sade Sati and Saturn's (Shani) Dhaiya:

: Transit Chart:

Saturn's (Shani) Sade Sati and Saturn's (Shani) Dhaiya:

- 1- Saturn's (Shani) Sade Sati (seven and half years) will run when Saturn transits in twelfth house, Ascendant house and second house of the Transit Chart. Do astrological remedies.
- 2- Saturn's (Shani) Dhaiya (two and half years) will run when Saturn transits the eighth house of the Transit Chart. Do astrological remedies.
- 3- If a person is running Saturn's (Shani) Sade Sati or Saturn's (Shani) Dhaiya and also running the Maha Dasha of Saturn, then certainly do astrological remedies. Take more cautions when Saturn is combusted or retrograde during that period.

- 8- Either of the above and Rahu or Ketu is also with Mars, increases mangal dosh.

CHAPTER-F

Karama's (Deeds):

Example-

A-1- Mr A spent 12 hours with his friend Mr B. When Mr A returned home, Mr A felt that time spent with Mr B was extremely sweet. As if 12 hours had passed in just one minute.

A-2- Mr A spent 12 hours with his friend Mr C. When Mr A returned home, Mr A felt that the time spent with Mr C was very sweet. As if 12 hours had passed in 3 hours.

A-3- Mr A spent 12 hours with his friend Mr D. When Mr A returned home, Mr A felt that the time spent with Mr D was very good. As if 12 hours had passed in 6 hours.

A-4- Mr A spent 12 hours with his friend Mr E. When Mr A returned home, Mr A realised that the time spent with Mr E was good. As if 12 hours had passed in 9 hours.

A-5- Mr A spent 12 hours with his friend Mr F. When Mr A returned home, Mr A realised that the time spent with Mr F was average. As if 12 hours had passed in 12 hours.

A-6- Mr A spent 12 hours with his friend Mr G. When Mr A returned home, Mr A felt that time spent with Mr G was tense due to arguments. As if 12 hours had passed in 18 hours.

A-7- Mr A spent 12 hours with his friend Mr H. When Mr A returned home, Mr A realised that time spent Mr H was very tense due to confusions and arguments. As if 12 hours had passed in 30 hours

A-8- Mr A spent 12 hours with his friend Mr I. When Mr A returned home, Mr A realised that there were arguments, quarrels, and some scuffles with Mr I, due to which Mr A felt extremely stressed and his mind was upset. As if years had passed, instead of 12 hours.

1- The time which passes quickly, is a good and sweet time.

2- The time which passes slowly, is a moderate to difficult time.

3- The time which seems to take years to pass, is a bad and hard time.

4- Lust, anger, greed, attachment, arrogance, jealousy, pride, hatred, fear, laziness, deceit, stubbornness etc. are in all human beings, even in a Saint (Sadhu) also. But a Saint, with his maturity and experience, keeps the environment of A-1, A-2, A-3 and A-4 around him. He under compulsion goes to A-5 for a short period. Saint completely abandons the circumstances that lead to A-6, A-7, and A-8. Thus, Saint keeps himself always peaceful and happy.

5- By making some efforts an ordinary human-being can also increase his level of peace and happiness in his life. By improving his maturity and style of working, he can keep the environment of A-1, A-2, A-3, A-4 and A-5 around him. Under compulsion he may

go to A-6 for a short time. Completely abandon the circumstances that lead to A-7 and A-8. By doing this he will gradually start attaining **self-realization**.

- 6- By gaining **self-realization** and improving his maturity, the degree of peace and happiness will increase in his life. This will also gradually bring **inner peace** in his life. With the increase in inner peace, he gradually purifies himself. With the increase in **self-purification**, gradually he will begin to walk on the **path of truth**. After some time studying by contemplation, meditation and churn, his **spirituality** will begin to awaken.
- 7- Even the most difficult time can be made peaceful and happy, through contentment, compromise, restraint, sacrifice, harmony, wisdom. politeness, caution, saintliness etc.

B- Destiny:

1- Destiny- Out of many, destiny mainly depends on four major factors.

- a- Incident/ Opportunity/ Desires
- b- Luck
- c- Karamas (Deeds)
- d- Circumstances

2- Degree of Success/ Failure-

Incident/ Opportunity/ Desires +		+1000% or more
		+500%
		+200
		+100%
Luck +		+50%
		+10%

2- **Incident-** Every incident has a limit. Luck and karmas also have their limits. If the extent of an incident is so great that it exceeds the combined limits of luck and karmas, harm occurs.

3- **Circumstances-** Almost at the same time, at some distance two babies are born. One baby is born in a wealthy family, while the other baby is born in a very poor family. Why is there a vast difference in the luck of both babies, although astrological data of both babies are almost same. But circumstances of both babies are vast different by birth.

4- Major Incidents of the World:

- 1- Great oxygenation event- 2.4 billion years ago. Loss of most of the Earth's obligate anaerobes.
- 2- Ordovician Period- 490 to 443 million years ago. Earth's 86% of species lost.
- 3- Late Devonian- 375 million years ago. Earth's 75% of species lost.
- 4- Permian Period- 299 to 252 million years ago. Earth's 96% of species lost.
- 5- End of Triassic- 200 million years ago. Earth's 80% of species lost.
- 6- End of Cretaceous- 66 million years ago. Earth's 76% of species lost.
- 7- Toba Super eruption, Indonesia- 75,000 years ago. Only 3000 to 10000 human adults left on the Earth.
- 8- Second world war- 1939 to 1945 AD- Millions of humans killed.

C- Theory of Karmas (Deeds):

1-Karmas (Deeds) are of two types-

- 1- Good Karmas (Good deeds)- Sharing to others your fortune, happiness, and good deeds.
- 2- Bad Karmas (Bad deeds)- Snatching away others fortune, happiness, and good deeds.

Bad Karmas (Deeds) are of two types-

1. Bad Karmas (Deeds) done out of necessity. If a Lion does not kill an animal, he and his family will die out of hunger.
2. Bad Karmas (Deeds) done for the sake of fulfilling one's desires. There is everything in the house, yet one robs others.

2- Every creature on the Earth lives for three main things (out of many):

- 1- Survival- How to stay safe and survive.
- 2- Food.
- 3- Personal relations.

For food, all creatures need to eat Bio-cells of others creatures i.e., animals, plants and fungi.

There are three forms of Karmas (deeds) results:

- a- Sanchit Karmas (Accumulated Karmas)- Karmas whose results have not yet begun to be received.
- b- Prarabdha (destiny)- Combined results of past karmas and some present karmas.
- c- Kriya mana Karma- Present karmas whose results will be received later.

In which species one will take birth in his next life, is determined by one's Karmas. Therefore, avoid committing so many sins that one ends up in a species that is not at all pleasing in the next life.

3- Conclusion: Do only necessary bad deeds in life, which are required for survival. One must do greater good deeds, than the necessary bad deeds done in his life.

4- On the path of time- good deeds and bad deeds, sins and virtues, fortunes and misfortunes, happiness and sorrows, peace and unrest, troubles, joys etc., are interrelated with each other. To understand this, along knowledge of Karma, basic knowledge of following subjects is essential to know:

- 1- Astronomy
- 2- Astrology
- 3- Evolution of Universe
- 4- Evolution of Earth
- 5- Natural Environment
- 6- Evolution of life
- 7- Evolution of humans
- 8- Evolution of religions

When the basic knowledge of the above subjects is obtained, then we can understand basis of following subjects:

- A- Birth- death-rebirth
- B- Soul
- C- Species
- D- Spirituality
- E- Almighty God

D- Evolution of Universe:

- 1- Big-Bang–Universe born, 13.8 billion years ago.
- 2- Matter and Anti-matter

- 3- Fundamental particles
- 4- Very-very hot and condense matter, expanded very-very fast.
- 5- Formation of protons and neutrons
- 6- Formation of hydrogen gas
- 7- Gravity develops
- 8- Formations of big stars
- 9- Formation of black holes and elements by super-nova
- 10- Formation of galaxies
- 11- Formations of planets around stars (solar system)
- 12- At present observable universe is 93 billion light years across.

E- Evolution of Earth and evolution of life:

- 1- Earth formed around 4.54 billion years ago and slowly cooled down
- 2- 4.4 billion years ago- Water on Earth
- 3- 3.9 billion years ago- Single cell organisms
- 4- 2.4 billion years ago- Earth atmosphere filled with oxygen
- 5- 2.0 billion years ago- Eukaryotic cell, multicellular life (including DNA)
- 6- 535 million years ago- Cambrian Explosion
- 7- 500 million years ago- Plants begin to colonize land
- 8- 397 million years ago- First animal with four legs evolve
- 9- 340 million years ago- First amphibians develop
- 10- 250 million years ago- Dinosaurs evolved
- 11- 200 million years ago- First mammals appear
- 12- 150 million years ago- Archaeopteryx (birds) appear
- 13- 130 million years ago- Flowering of plants evolve
- 14- 90 to 66 million years ago- First primates appear
- 15- 66 to 56 million years ago- Primates diverge into Strepsirrhini and Haplorhini
- 16- 50 to 35 million years ago- Simians split into Platyrrhini and Catarrhini
- 17- 35 to 20 million years ago- Catarrhini split into two super families- old world monkeys and ape (Hominoidea)
- 18- 20 to 16 million years ago- Hominidae split from the ancestors of the gibbon (lesser ape)
- 19- 16 to 12 million years ago- Hominidae (great ape ancestors) divided into Homininae and orangutan

- 20- 12 million years ago- In Hominidae adaptation for both hanging in trees and walking on two legs started
- 21- 12 to 8 million years ago-Homininae split into Hominini and Gorillini (Gorilla)
- 22- 8 to 6 million years ago- Hominini split into Homo Genus, Chimpanzee and Bonobo.
- 23- Homo Genus are ancestors of Homo Sapiens
- 24- Fossils and DNA confirm that humans are one of more than 200 species belonging to the order of primates.

F- Natural Environment (natural living space):

The natural environment is, all things that exist in nature. Such as animals, plants, water, air, and sunlight. It also includes features like mountains, forests, and rivers. The natural environment is important because it provides us with resources that we need to live and survive.

Natural Living Space- Natural living space is around -8 km below to + 8 km above sea level, for all living beings. All creatures live within a spherical shell, around 16 km thick and mean diameter of 12742 km. Humans are desperately searching for such type of Natural Living Space outside the Earth and spending lots of money on such projects.

G-Evolution of Human:

Humans and genus Pan (Bonobo and chimpanzee) is believed to have diverged from a common ancestor (CHLCA) roughly 8 to 6 million years ago, with brain size 350 cc to 400 cc. Human bipedalism, walking on two legs, emerged gradually over millions of years, with significant developments occurring between 7 to 4 million years ago. The earliest stone tools ever found are dated to 3.3 million years ago, however cut marks on bones by tools are dated to 3.39 million years ago.

Human brain size increased with passage of time. Homo habilis lived around 2.5 to 1.8 million years ago, brain size increased to 610 cc. Homo erectus lived around 1.9 million to 110000 years ago, brain size increased to about 860 cc. Homo heidelbergensis lived around 600000 years ago, brain size increased to around 1250 cc. Homo neanderthalensis lived around 400000 to 40000 years ago, with brain size around 1600 cc. Homo sapiens are living from 300000 years to till now, brain size is around 1350 cc. Humans are the only creature on the Earth whose brain has increased by around 3.5 times in 5 million years of time. Increase in brain size developed mental power and analytical power of humans.

H- Earliest known genus homo:

- 1- Ardipithecus- 5.8 million years ago.
- 2- Ardipithecus ramidus, Kenyanthropus platyops, Australopithecus anamensis, Paranthropus robustus, Homoheidelbergensis, Austrapithecus africanus, Australopithecus afarensis, Homo erectus, Neanderthal, Denisovan etc.
- 3- Homo Sapiens evolved around 3,00,000 years ago in Africa and spread all over the world. The last ice age lasted until 11,700 years ago. After the last ice age Homo Sapiens found that they could control and breed certain plants and animals. Humans invested more time in producing food and in settling down. Slowly villages became towns and towns became cities.
- 4- 11,300 years ago- First cultivation of grains started with growing wild emmer.
- 5- 11,000 to 9,000 years ago- Domestication of sheep, goat and cow. Domestication of emmer wheat. Early undecorated and unglazed low fired pottery.
- 6- 9,000 to 6,000 years ago- Invention of the potter wheel. Irrigation and flood control started. Started sailing of boats, building of temples and use of light wooden ploughs.
- 7- The three major Human races, Negroid (Negro), Caucasoid (Europid) and Mongoloid which were separated due to Geographic barrier. But in the last 8,000 to 5,000 years, slowly Globalization has broken the Geographic barriers.
- 8- 6,000 to 4,000 years ago- Domestication of wild ass and donkey. First civilization Sumer. Made wheeled vehicles. King Narmer gave birth to World's first nation. Early dynastic period of Egypt. Sumerian writing- cuneiform script. Completion of the Great Pyramid. First domestication of camels. Use of spoke wheel driven by horse.
- 9- In the theoretical case of perfect geographic isolation, (absence of genetic recombination by genic flux and hybridization) the three major races would have become three or more species in less than one million of years.

I- Evolution of religions:

Since ancient times and even today most creatures exhibit strange behaviour before and during natural events, as if they are seeing the presence of some invisible force. Jackals, monkeys, wolves, dogs etc., and many types of birds begin to make noise and start wailing. Burrowing creatures emerge from their burrows and exhibit strange behaviour. This has been there for millions of years. Humans also behaved similarly long ago. Human intelligence (thinking and understanding) has evolved over time. Humans have gradually come to understand many natural phenomena. Even today humans are trying

to understand many natural phenomena like what happens after death, the cycle of fortune and misfortune, the cycle of happiness and sorrow, rebirth, soul, God etc.

Human burial started as early as 1,00,000 years ago. There is archaeological evidence that religion existed as early as 62,000 years ago. Signs of specific burial customs and cult rituals indicate that religion (or religious practices) began with these practices. In the beginning religion was a way to explain natural phenomena by ascribing power to super natural forces. After some period, religion was a way to provide a moral force to encourage cohesiveness and co-operation within society.

- 1- 9,500 BCE- Gobekli Tepe in Turkey, one of the oldest humans made sites of worship (Temple).
- 2- 7,500 to 5,700 BCE- The settlement of Catalhoyuk developed as a likely worship centre of Anatolia, Turkey.
- 3- 7,250- to 6,500 BCE- The Ain Ghazal statues were made in Jordan for worshipping.
- 4- 4,500 to 2,000 BCE- Sumerian religion (Mesopotamia religion), could not stay on the path of time.
- 5- 3,300 to 1,300 BCE- Indus valley civilization worshipped Mother Goddess and lord Shiva Pasupathi.
- 6- 2,500 to 500 BCE- Babylonian religion, could not stay on the path of time.
- 7- 2,494 to 2,345 BCE- Pyramid Texts in ancient Egypt.
- 8- 2,200 BCE- Minoan civilization, worshipped Goddess.
- 9- 2,150 to 2,000 BCE- Sumerian Epic of Gilgamesh.
- 10- 2,000 to 1,850 BCE- Judeo-Christian-Islamic Patriarch Abraham lived in Haran. Judaism began by Hebrew peoples.
- 11- 1,500 BCE- Vedic religion began. Later this religion was converted into modern Hinduism between 800 to 500 BCE.
- 12- 1,500 BCE- Zoroastrianism began.
- 13- 600 BCE- Confucianism began.
- 14- 500 BCE (around)- Jainism began.
- 15- 500BCE (around)- Buddhism began.
- 16- 30 CE- Christianity began.
- 17- 613 CE- Islam began.
- 18- 500 CE- Sikhism began.

J- Oldest languages of the world:

- 1- 16,000 to 7,500 BCE- Proto-Afroasiatic language is spoken.

- 2- 4,200 BCE- Indo-European language, Anatolian language and Mycenaean language.
- 3- 3,300 to 1,900 BCE- Harappan civilization in Indus valley. Indus script is a corpus of symbols. They are short 64 basic symbols and around 400 letters have been found. But it remains undecipherable and no language has been identified.
- 4- 2,500 BCE- Indo Iranian language emerged which is a branch of the Indo-European language family.
- 5- 1,400 BCE- Indo-Aryan language emerged from Indo-Iranian language. Epigraphically from 300 BCE in the form of Prakrit (Edicts of Ashoka).
- 6- 200 BCE- Tamil cave inscriptions and potsherds in Tamil Nadu.

K-Religion:

Religions have been established by some Great person of a group or a group of people- for the benefit of that society, for smooth functioning of that society, for protection of that society, for growth of that society and as per needs of that society. People adopt religion from mind, intellect, body, desires, thoughts etc. and follow code of conduct, rituals, laws, rules and regulations, traditions, beliefs, faiths, sentiments, principles etc. of that religion.

Changes come in society due to new circumstances and needs with the passage of time. Science also provides new information through its new discoveries. Due to these reasons religious beliefs and traditions also undergo changes. As per time, adopting these changes is good in the interest of religion and people.

In ancient times, tribes had different religions. Over time, these religions coalesced into organised religions. Religion increased the numbers of people in groups, increasing solidarity and knowledge sharing. This sharing of knowledge allowed humans to evolve rapidly. In the past, religion had played an important role in human evolution. Humans are the only religious creature on the Earth.

L- Birth-Death-Rebirth:

After studying only Ascendant Charts of 50 horoscopes, it will be known that Heavenly Bodies determine the nature of humans by birth. By deeply studying 300 horoscopes, it will be known that Heavenly Bodies determine the nature and to some extent fortunes and misfortunes of humans by birth.

When nature and to some extent the fortunes and misfortunes of all humans are pre-decided by birth, it means humans have connections with their past life (before birth time period). As if, a Divine Power is observing, controlling, and balancing all humans. Means there is a cycle of birth, death, and rebirth.

No human-being goes empty handed. They carry with them a record of their sin and virtues based on their good and bad deeds done in their previous lives. These are reaped in the form of fortune and misfortune in their next life.

Today there are more than 8 billion humans on the Earth. If we examine the differences in fortune and misfortune of all humans at their birth time, we will find countless and limitless variations.

A Power that passes from one body to another body is called Soul. By studying the horoscope of a person, his nature and to some extent his fortunes and misfortunes can be known.

M- Soul:

The Soul is a power, which keeps on changing bodies on the path of time, from one body to another, from second body to third body, like this keeps on changing bodies. The soul present in any body is billions of years old. Every soul has changed countless bodies on the path of time. The soul will change countless bodies for billions of years more.

Until the soul leaves the body, it carries the cycle of good and bad deeds. When the soul leaves the body, it carries the cycle of sin and virtue, based on the good and bad deeds done in the past lives. Almighty God sends the soul to take birth in a new body based on the sin and virtue, which the new body receives in the form of fortunes and misfortunes.

Maintain the purity of the soul. Do only necessary bad deeds require for survival. Do greater good deeds than the necessary bad deeds done in life. Follow the Theory of Karmas. So that sweetness of every birth remains and keeps getting the desired births.

N- Species:

At present around 8.7 million species of plants and animals exist on the Earth. Only 1.2 million species have been identified. The populations of many species are decreasing over time. While populations of many species are increasing over time. Earlier the population of animals and birds in the forest was high, which is now decreasing. Earlier the population of human beings was low, which is now increasing rapidly.

Estimated Human population on time line:

- 1- 10000 BCE ----- 2 million
- 2- 5000 BCE ----- 18 million
- 3- 1000 BCE ----- 115 million

- 4- 0 AD----- 188 million
- 5- 500 AD ----- 210 million
- 6- 1000 AD ----- 295 million
- 7- 1500 AD ----- 392 million
- 8- 1800 AD ----- 989 million
- 9- 1900 AD ----- 1654 million
- 10- 2000 AD ----- 6090 million
- 11- 2010 AD ----- 6900 million
- 12- 2023 AD ----- 8000 million

O- Spirituality:

Spirituality is the study of one's life on the path of time and to improve it by good deeds. Spirituality is also the study of one's soul on the path of time and to improve the path of soul by good deeds.

On the path of time- good deeds and bad deeds, sins and virtues, fortunes and misfortunes, happiness and sorrows, peace and unrest, troubles, joys etc., are interrelated with each other. The observer, controller, and balancer of this is Almighty God. Almighty God balances birth-death-rebirth, species, fortunes-misfortunes, happiness and sorrows etc. of all living beings, based on of their deeds done. Knowledge of this interrelation can be gained by awakening one's Spirituality.

P- Almighty God:

- 1- Out of many countless jobs, He is also the observer, controller, and balancer of all Karma's (Deeds) of all species.
- 2- All living being lives their lives by following nature's laws. God provides the next birth to them based on their good and bad deeds done in their life. Due to the development of intelligence, humans live their live based on rules made by themselves. God provides the next birth to human beings based on the good and bad karmas (deeds) done by them.
- 3- God determines the fortunes and misfortunes of all species based on their deeds. The God also determines, based on one's karmas, that one's soul will take birth in which species in the next life.
- 4- Study of astrology is a big link to understand karma's (deeds), to understand sin and virtue, to understand happiness and sorrows, to understand birth-death-rebirth, to understand soul-species and at the last to go towards the Almighty God.

Q- Toughest topics to study:

- 1- Almighty God
- 2- Big-bang – What caused the Big-bang.
- 3- Cell (Biological), FUCA/ LUCA -How first cell came into being. DNA- contains the instructions needed for an organism to develop, to survive and to reproduce. And to make changes within itself according to environmental changes.
- 4- Spirituality
- 5- Human personal relations.

R- Conclusions:

- 1- All Heavenly Bodies are inter-connected with each other, through their gravitational forces. Karmas of all living beings at every moment of time are observed by Heavenly Bodies (including the Earth) through their gravitational forces.
- 2- Gravitational forces of moving Heavenly Bodies (including the Earth) at different points in the Zodiac, affect Human beings differently.
- 3- Heavenly Bodies whose gravitational force affects the Earth, have different characteristics in their gravitational forces.
- 4- These different characteristics of gravitational forces of Heavenly Bodies, affect the nature and behaviour of human beings, due to which they have different nature and behaviours in them.

How I reached here:

From the age of preschool, I saw my parents worshipping God in temples and in the home temple. Since then, faith in God grew in me and I have been striving to know and understand the divine power. Many kinds of bitter incidents continued to happen in my life from preschool age, till the age of about 11 years. Due to which many kinds of deficiencies came in my life, like- lack of self-confidence, inferiority complex, lack of maturity, lack of communication, lack of decision-making ability, stammering, excessive stammering in front of strangers etc., which developed the feeling that I am nothing. As I grew older, my curiosity to understand the divine power grew even more. Wherever I go, I visited the Temples, Churches, Buddhist Monasteries, Gurudwaras, Mausoleum etc., and paid my respects with reverence. I was born in November 1955. My hobby in palmistry began in 1975 and my hobby in astrology began in 1977.

Two devastating events occurred in my life within a span of approximately 18 months, which completely shook my life. The fire of understanding the divine power in life, which was smouldering occasionally, now flared up and started blazing. Through my hobbies of palmistry and astrology, I met thousands of people and gained insight into various types of life situations. To deeply understand the cycle of good deeds and bad deeds, sins and virtues, fortunes and misfortunes, happiness and sorrows, peace, and unrest etc., I continued to think deeply every day. Divine power is everywhere, but I could not find any source to understand it.

One evening in July 2007, I was waiting for a friend at Gandhi Park Dehradun, Uttarakhand, thinking about the life cycle. Suddenly the idea to understand this cycle of good deeds and bad deeds, sins and virtues, fortunes and misfortunes, happiness and sorrows, peace and unrest etc., struck me through Heavenly bodies. As if the tip of the hair of the elephant's tail came into my hand. As the time passed, with the help of astrology, I found that the balancer of this cycle is the Almighty God. The Almighty God balances the cycle of all living beings on the path of time based on their good deeds and bad deeds. We do not achieve anything in our life by our own will. Whatever we achieve in our life is the result of our good deeds and bad deeds done in the past, and to some extent our good and bad deeds which we are doing in the present. Astrology is very helpful in understanding this cycle.
